

SoundRacer_car_list.txt

SoundRacer Listed Cars

If you do not see your car in the SoundRacer Listed Cars don't worry! SoundRacer can still work perfectly well in your car, it has just not yet been reported or tested. The list shows that SoundRacer works fine in about 85% of all car models.

On some models a low signal level and/or a high level of electrical noise has caused problems for SoundRacer to perform satisfactory. Some car models can be reported both to work well and to have problems. The reason can be differences in the electrical system on different versions.

In some problem cars it can help by adding electric load on alternator by switching on headlights, seat heaters or rear window defroster, when the alternator works harder it produces larger pulses for the SoundRacer to detect.

List of Alfa Romeo models that we have received positive user reports about.

Alfa Romeo 145 2.0 TD

Alfa Romeo 146 1.6 T.SPARK 16V 1998

Alfa Romeo 147 1.6 TWIN SPARK 2007

Alfa Romeo 159

Alfa Romeo GT 1.8 TS 2007

Alfa Romeo GT 1.9 GTD 2007

There are no negative reports for this car make.
